

Teradata Named Best Global Data Warehouse-Business Intelligence Appliance Vendor

February 19, 2007 at 11:30 AM EST

DAYTON, Ohio--(BUSINESS WIRE)--Feb. 19, 2007--Teradata, a division of NCR Corporation (NYSE:NCR), announced that Teradata was named the best global data warehouse-business intelligence appliance vendor by readers of Intelligent Enterprise Magazine, a CMP Media publication.

"Readers are the best judge of what works for them, and our Readers' Choice Awards are an indication of products that have delivered good value to the broadest spectrum of users," said Doug Henschen, Intelligent Enterprise, editor-in-chief. "Teradata has earned the respect of our readers."

Each year, Intelligent Enterprise Magazine invites its readers to select their preferred vendors in a range of 37 different technology categories. Hundreds of readers voted through a secure Web ballot that ensured one vote per subscriber in each of the categories.

The Teradata enterprise data warehouse is uniquely designed to grow as a customer's business grows, from a single server to hundreds of servers, without rewriting the applications, database or the tools and utilities. Regardless of the size of the warehouse, Teradata supports businesses that depend on their data warehouse for mission-critical applications that drive revenue, customer satisfaction and employee productivity.

The Teradata(R) data warehouse and enterprise analytics enable companies to make better, faster decisions. Teradata customers gain a critical business advantage from the speed and efficiency with which Teradata analyzes customer behavior and other business information. The results of the analysis provide business intelligence to decision-makers -- from strategic analysis for senior executives to operational intelligence for employees on the front lines.

About Intelligent Enterprise

Published online, CMP Media's LLC's IntelligentEnterprise.com is the only site exclusively focused on how technologies can work together to form the strategic applications vital to businesses.
