

MECU Deepens Relationship with Members Through Digital Banking from Digital Insight

October 23, 2014 at 8:00 AM EDT

New MECU online and mobile banking experience helps deliver banking services to Baltimore area

DULUTH, Ga.--(BUSINESS WIRE)--Oct. 23, 2014-- NCR Corporation (NYSE: NCR), the global leader in consumer transaction technologies, today announced that MECU, a credit union serving the community in Baltimore, Md., will use digital banking services and solutions from Digital Insight, an NCR company, to deepen its relationship with its members. The new online and mobile banking experience went live in September, providing members with seamless access to their banking needs.

"MECU's members know that we put them first in everything we do," said Gary J. Martin, President and CEO of MECU of Baltimore. "With Digital Insight we had an opportunity to provide them with online and mobile access to their accounts that was easier for them to use while giving them more tools to better manage their finances. The transition to the Digital Insight platform went very well."

NCR Corporation acquired Digital Insight in January 2014 to enable financial institutions to provide omni-channel banking experiences to their members and customers.

"Digital Insight was able to deliver MECU a dynamic mobile and online banking experience," said Jeff Hughes, general manager of Digital Insight and CTO of NCR Financial Services. "By keeping our platforms unified, MECU will be able to provide its members with the same experience across digital channels. In addition, our flexible platform will allow them to develop their own widgets, tabs and other offers to further reinforce its brand online."
