

## NCR to Demonstrate Mobile Solutions, Payments Technology and Innovation Leadership at Money 20/20

October 29, 2014 at 8:00 AM EDT

*Consumer transaction technologies leader enables 485 million transactions daily across financial, retail, hospitality and small business*

DULUTH, Ga.--(BUSINESS WIRE)--Oct. 29, 2014-- [NCR Corporation](#) (NYSE: NCR), the global leader in consumer transaction technologies, will demonstrate mobile technologies and SaaS solutions for financial institutions and merchants of all sizes at Money 20/20 in Las Vegas, November 2-5, 2014. NCR solutions make it easier for consumers and businesses to manage their money, while also transforming the way they connect, interact and transact with each other.

NCR's innovative technology and SaaS solutions that will be showcased in the NCR booth (#606) at Money 20/20 include:

- **NCR Silver mobile point-of-sale system** for small businesses, now also offering remote payment and [order ahead capabilities](#) that are compatible and operable with Apple Pay™.
- **Digital Insight Consumer Mobile and Tablet Apps for Apple® and Android™** with Mobile Remote Deposit Capture, Bill Pay and Person-to-Person payments, which allows customers to bank anytime, anywhere and on any compatible device.
- **APTRA Mobile Cash Withdrawal** allows consumers to pre-stage ATM transactions using their mobile banking app, and completes the transaction at the ATM by scanning a QR code using their phone's camera.
- **APTRA Passport** is remote deposit capture software that includes new capabilities for commercial businesses. This new service includes mobile capabilities such as multiple items per deposit, user entitlements and permissions, invoice tagging, and advanced reporting.
- **Alaric Authentic and Fractals software** provides switching/routing, authorization and fraud detection for card and retail banking transactions for merchants, acquirers, PSPs and issuers.
- **NCR Connected Payments** offers a secure payment route, ensuring complete data and transmission security from PIN pad to processor.
- **NCR Retailix 10 Mobile Shopper** is a retailer-branded mobile shopping app for consumers to find a store, build shopping lists and scan items while shopping.
- **NCR Counterpoint Mobile** allows SMB retailers to run their business from the sales floor or any pop-up location, sidewalk sale or even a trade show floor.
- **NCR Secure Pay** creates a hosted electronic payment gateway solution minimizing a merchant's risk for credit card security through secure data storage and transmission.

NCR executives will also be available to demonstrate the recently announced [Intel® Data Protection Technology for Transactions](#). Developed jointly between Intel and NCR, this is the industry's first solution for end-to-end encryption of consumer and financial data that is built into point-of-sale (POS) platforms. In conjunction with [NCR DataGuard](#), the solution adds a new level of security into transactional systems and shields all important data from consumer information to payments to confidential business information from possible misuse.

Additionally, [Justin Hotard](#), President, NCR Small Business will participate in a panel discussion, [Enabling the 'Everywhere POS'](#), on November 5 at 12:15 p.m. Hotard will discuss how advanced mobile POS solutions, such as [NCR Silver](#), transform how merchants engage customers in today's omni-channel world and create a new ecosystem for developers of retail apps.

"Merchants of all sizes are rapidly evolving towards a mobile-first world in order to reach new customers and grow their businesses," said Hotard. "Money 20/20 provides a great opportunity to explore the disruptive innovations in commerce that are fundamentally changing the industries that NCR's consumer transaction technologies, including NCR Silver, serve today. NCR sits at the intersection of business and consumers, and we are excited to showcase our innovative technology and cloud-based solutions at this year's event."
