

NCR Selected as Intelligent Deposit ATM Provider for Banamex

November 23, 2015 at 8:00 AM EST

One of Mexico's largest financial institutions to expand its ATM network with NCR deposit technology

DULUTH, Ga.--(BUSINESS WIRE)--Nov. 23, 2015-- NCR Corporation, the global leader in consumer transaction technologies, today announced that it has been chosen as the intelligent deposit ATM provider of Banamex, one of Mexico's largest financial institutions. Since last year, NCR has installed more than 1,500 Banamex-branded ATMs throughout Mexico, including 750 intelligent deposit units with coin, cash and check deposit functionality.

The new SelfServ ATMs will be installed in existing Banamex branches, as well as a number of smaller-footprint "digital branches". NCR anticipates completing the installations by December.

"Our work with NCR represents our largest full-function ATM deployment in our history, and it was critical we work with a company known for its innovation and experience," said Chris Vrey, Channel Strategy Manager, Banamex. "Our customers are already able to take advantage of cash deposit features. We've been pleased with speed and quality of NCR's service and installation teams to help us deliver this new experience to our customers."

NCR's services teams also will provide first and second-line maintenance for the Banamex ATMs.

"Banamex is a premier financial institution in Mexico, and we are excited to deliver leading NCR deposit technology to their customers," said Fernando Suárez, area sales leader, NCR Mexico. "Consumers and businesses alike want quick and easy access to banking services. Through our SelfServ ATMs, consumers will have fast, reliable access to their bank accounts and businesses will be able to make deposits even after their branch has closed."

About NCR Corporation

NCR Corporation (NYSE: NCR) is the global leader in consumer transaction technologies, turning everyday interactions with businesses into exceptional experiences.
