

## NCR Unveils Open API Developer Portal for Digital Banking Customers

September 26, 2016 at 8:00 AM EDT

*Platform allows financial institutions to create customized FinTech applications*

DULUTH, Ga.--(BUSINESS WIRE)--Sep. 26, 2016-- [NCR Corporation](#) (NYSE: NCR), a global leader in omni-channel solutions, today announced the launch of its cloud-based [Developer Portal](#), enabling financial institutions to build their own innovative digital banking applications to better meet the unique financial management needs of their customers.

The portal provides self-service access to digital banking APIs, the Software Development Kit (SDK) and third-party software connections developed by [Digital Insight](#), an NCR company, to provide developers at financial institutions with the data and services required to create and seamlessly integrate custom applications that complement their existing digital banking functionality.

"The Developer Portal is a testament to NCR's commitment to innovation that enables growth for financial institutions through the use of technology and an open, flexible platform," said Jose Resendiz, vice president & general manager, NCR Digital Insight. "We are focused on offering solutions and services that give financial institutions the capability to transform their vision into reality, differentiate in the markets they serve and ultimately meet their goals."

Key services include:

- **API** – View and test currently available APIs offered through the Developer Portal and all associated documentation. Financial institutions can request access to APIs as well as monitor production use.
- **SDK** – Access User Interface (UI) builder tools to create new pages and widgets, leveraging the integration and style guides for a seamless and consistent user experience.
- **App Gallery** – Browse a variety of applications that have already been developed to learn what is possible and spark ideas.
- **Support** – Access FAQs, code samples and the customer forum to exchange information, tips and best practices among developers.

The Developer Portal will be showcased at NCR's annual [Innovation Conference](#) in Washington, D.C., September 26-28, 2016. Several financial institutions have already integrated solutions in production that address the unique needs of their institution and end customers.
