

Boddie-Noell to Install NCR Point of Sale Solution in 350 Restaurants Nationwide

November 2, 2000 at 10:36 AM EST

ATLANTA, Nov. 2 /PRNewswire/ -- Boddie-Noell Enterprises Inc., a major independent U.S. Hardee's franchisee, today announced it will install NCR Corporation's (NYSE: NCR) touch-screen, Web-enabled POS solutions in 350 of its restaurants nationwide. Rollout is expected to conclude within three years.

The POS hardware, system integration, staging and professional services will be provided by Century Data Group, a Raleigh-based division of NCR authorized reseller Systech Retail Systems, Inc. (Toronto: SYS).

Boddie-Noell, which currently owns and operates 335 Hardee's restaurants, 13 Texas Steakhouses, and several business, club and residential properties, selected the NCR 7454 POS terminals because they offer functionality far beyond the traditional touchscreen ordering system. When it is not in use by store personnel, the multimedia workstations can run customer promotions or employee training programs.

About Boddie-Noell

Founded in 1962, Boddie-Noell Enterprises is one of the country's largest privately held companies with over 12 thousand employees, and the largest franchisee of Hardee's food systems. For more information, visit www.bneinc.com.

About Systech Retail Systems

Systech offers a unique and comprehensive combination of retail technology, including software, systems and services, to large retailers throughout North America. Its open architecture solutions enable e-commerce and other powerful new technology to be applied to the retail environment. The Company's significant cross-platform capability and 500-plus technical service force allow it to address any in-store systems requirement-regardless of project size or scope. Systech supports the North American retail industry through its network of facilities and offices in Dallas, Boston, Los Angeles, Raleigh, Toronto, Montreal and Vancouver. Shares of Systech Retail Systems are traded on the Toronto Stock Exchange under the symbol (SYS). More information about Systech may be found at www.srspos.com.
