NEWS RELEASE

#### NCR POSTS FOURTH-QUARTER PROFIT AND IMPROVED FULL-YEAR RESULTS

DAYTON, OHIO -- NCR Corporation reported fourth-quarter net income of \$36 million, or \$.35 per share, compared to net income of \$7 million, or \$.07 per share, in the comparable period last year. Full-year earnings of \$7 million or \$0.07 per share, was the first reported net income since 1992 and compared to a net loss of \$1.07 per share, a year ago.

Revenue in the quarter was \$1.992 billion, a decline of two percent from the \$2.040 billion reported in the year-ago period. On a local currency basis, revenue increased three percent in the quarter.

In the year-ago fourth quarter, NCR recorded a favorable impact of a \$55 million pre-tax release of restructuring reserves and an adverse impact of an \$82 million tax adjustment associated with restructuring. In order to facilitate both quarterly and yearly comparisons, the discussion below excludes these one-time impacts. Gross margins in the quarter declined to 27.4 percent from 29.6 percent in last year's fourth quarter.

Total orders in the quarter declined from the year-ago level. On a local currency basis, orders posted a high-single digit decline.

"Our results for the quarter show important progress and also where we must improve," said NCR Chairman & CEO Lars Nyberg. "Our financial and retail businesses are performing well, posting respectable revenue gains in the quarter and growing order backlogs for the year.

"We have made significant changes for 1998 that make me confident we are well positioned to succeed," said Nyberg. "We have focused on 11 specific solution portfolios, aligned our sales and professional services people around these solutions in business units that now have full profit responsibility, and are improving our operating efficiency by moving from redundant local practices to global processes. And with our tightened focus on data warehousing, where we have a strong market position and technology leadership, we believe we have the right strategy for success."

## ORDERS

Total NCR orders were down compared to last year's quarter. On a local currency basis, orders declined by a high-single digit percentage. On a product basis, orders for financial products registered the largest fourth quarter increase on record. Orders for retail systems, computers, and PCs and entry level servers declined compared to the year-ago period. Orders for professional services were flat in the quarter.

On a geographic basis, orders in Europe/Middle East/Africa posted a high single digit gain over the year-ago period. Low-single digit order declines in Asia/Pacific and double-digit order declines in the Americas were recorded. On a local currency basis, orders grew in the teens in Europe/Middle East/Africa and in the high-single digits in the Asia/Pacific region.

#### REVENUE

Worldwide revenue increased three percent on a local currency basis but was down two percent on a reported dollar basis. Revenue gains of 14 percent for financial systems, 13 percent for PCs and entry level servers, nine percent for retail products, and five percent for professional services were reported on a dollar basis compared to the year-earlier period. However, these gains were offset by a 21 percent decline in computers, a one percent decline in Systemedia and a five percent decline in customer services revenues. Revenue increased three percent in Europe/Middle East/Africa but declined three percent in Asia/Pacific and nine percent in the Americas. On a local currency basis, Europe/Middle East/Africa region reported a twelve percent gain and Asia/Pacific reported a ten percent gain.

4

#### GROSS MARGINS

Gross margins for NCR products and services declined 2.2 percentage points of revenue to 27.4 percent from 29.6 percent in last year's fourth quarter. Services gross margins declined by 5.3 percentage points due largely to lower reported revenues across an essentially fixed cost structure and higher costs than anticipated on certain major professional services projects. Gross margins for products and systems decreased 0.2 percentage points of revenue to 31.7 percent from 31.9 percent in the year-ago period.

# EXPENSES

Total expenses were at \$511 million compared to \$531 million in the year-ago period. An increase in selling expenses for the quarter was offset by declines in general and administrative expenses and research and development expenses.

# INCOME TAXES

Income taxes declined 73 percent from the year-ago period to \$11 million from \$41 million. The programs designed to lower high income tax rates resulting from worldwide operations are beginning to show favorable results.

### FULL-YEAR RESULTS

For the full-year, NCR reported net income of \$7 million, or \$.07 per share, compared to a reported loss of \$109 million, or \$1.07 per share in 1996. After excluding the effects of restructuring items discussed above, the 1996 net loss was \$82 million, or \$0.81 per share. Revenue for the year was \$6.589 billion, a decline of five percent from the \$6.963 billion reported in 1996, but down one percent in local currency. Orders for the year were below the prior year level, but flat in local currency. Declines in orders for computer products, PCs and entry level servers, and professional services offset gains in financial and retail systems orders.

Gross margins declined to 27.3 percent from 28.1 percent in the prior year period, or a decline of 0.8 percentage points of revenue. Total expenses declined three percent for the year to \$1.817 billion from \$1.879 billion in 1996. Income taxes declined to \$20 million for the year compared to \$137 million in 1996.

NCR ended the year with a strong financial position. At year-end, NCR recorded \$1.129 billion in cash and short term investments, debt of \$94 million and total shareholders' equity of \$1.353 billion.

As of December 31, 1997, NCR employed 38,300 people worldwide, including contractors.

NCR Corporation (www.ncr.com) is a recognized world leader in data warehousing solutions; open high-availability transaction processing systems; automated teller machines; high performance retail scanners and point-of-sale terminals; services and customer support for transaction-based systems for the retail, financial, and communications industries and other select markets.

# FINANCIAL INFORMATION

Detailed financial information regarding NCR's fourth quarter and full-year results is available on the Internet: http://www.ncr.com. NCR's senior vice president and Chief Financial Officer, John Giering, will discuss the company's financial performance in a taped broadcast. Access is available beginning at 12:00 noon (EST) today and will run until 5:00 P.M. (EST) on January 23. The broadcast can be accessed by calling 402-220-5185.

# NOTE TO INVESTORS:

This news release contains forward-looking statements, including statements as to anticipated or expected results, beliefs, opinions, and future financial performance. These forward-looking statements are based on current expectations and assumptions and involve risks and uncertainties that could cause NCR's actual results to differ materially.

In addition to the factors discussed in this release, other risks and uncertainties include the timely development, production or acquisition, and market acceptance of new and existing products and services; shifts in market demands; continued competitive factors and pricing pressures; short product-cycles and rapidly changing technologies; turnover of sales force and the ability to attract and retain skilled employees; tax rates; ability to execute the company's business plan; general economic and business conditions; and other factors detailed from time to time in the company's Securities and Exchange Commission reports, including the Form 10 filed in November 1996, the Form 10-K for the year ended December 31, 1996, the Form 10-Qs for the quarters ended March 31, June 30, and September 30, 1997, and the company's annual report to stockholders for 1996.

The company does not undertake any obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
