

Mobile Remote Deposit Capture, Powered by Digital Insight, Helps JetStream Federal Members Increase Convenience and Save Time

February 25, 2015 at 8:30 AM EST

DULUTH, Ga.--(BUSINESS WIRE)--Feb. 25, 2015-- NCR Corporation (NYSE: NCR), the global leader in consumer transaction technologies, today announced that JetStream Federal Credit Union will offer mobile remote deposit capture (RDC) to its members throughout Southern Florida and Puerto Rico. The added technology, powered by Digital Insight, an NCR company, allows members to upload a photo of a check from a smartphone device and directly deposit the money into a savings or checking account.

Mobile RDC from JetStream Federal gives members the convenience to make deposits day or night, from virtually any location, giving users faster access to funds and the ability to quickly deposit funds through an intuitive user interface.

As members look to digital channels for banking functions, mobile RDC provides the convenience users have to come to expect.

"It provides our members the same secure and easy to use member experience they receive when using online banking," said Mara Falero, Vice President of Marketing. Mobile RDC is accessed through JetStream Federal's mobile banking app.

In addition to mobile RDC, earlier this year, JetStream Federal also worked with Digital Insight to launch another new product, External Transfer. This product offers members the ability to transfer to and from their JetStream Federal account to their other financial institutions.
