

NCR Rolls Out Record 350,000th ATM from its Hungarian Manufacturing Facility

April 26, 2017 at 8:01 AM EDT

The facility continues to support NCR's vision of introducing innovations to serve the global financial, retail and hospitality industry

BUDAPEST, Hungary--(BUSINESS WIRE)--Apr. 26, 2017-- [NCR Corporation](#) (NYSE: NCR), a global leader in omni-channel solutions, today announced that its state-of-the-art manufacturing facility in Budapest has achieved the unique distinction of manufacturing its 350,000th ATM in a record period of just 11 years.

The Budapest facility remains NCR's largest manufacturing facility in the world with over 750 employees and manufactures ATMs for the U.S., Europe, Middle East and Africa markets. In addition to ATMs, NCR also produces self-checkout and point-of-sale (POS) solutions for the retail and hospitality industries. To date, the facility has produced over 500,000 technology products and is constantly evolving its processes and collaborating with the regional design team to influence future innovations.

"This landmark achievement of producing 350,000 ATMs is a result of our investments in a world class facility, the untiring efforts of our team and the superior quality of products we bring to our customers across 100 countries," said Zoli Kiss, senior director of operations, NCR Budapest. "This facility remains strategic to NCR's global growth strategy and has been introducing innovative technologies for over a decade now to serve our retail, financial and hospitality customers the world over."

This state-of-the-art ISO 50001 facility is BREEAM (Building Research Establishment Environmental Assessment Method) certified. In addition, it is strategically located near suppliers, customers and robust transportation and shipping hubs that help improve operational efficiency and enable faster delivery of innovative products.
