

NCR Previews All-in-One Solution that Integrates Payments Processing, Helps SMBs Leverage Digital Commerce

April 22, 2019 at 8:00 AM EDT

NCR Silver One™ Event Includes Small Business Customers and Chef, Restaurateur Bobby Flay

ATLANTA--(BUSINESS WIRE)--Apr. 22, 2019-- NCR Corporation (NYSE: NCR) today unveiled its enhanced all-in-one point-of-sale (POS) solution, that integrates payment processing with sleek, Samsung designed Quantum™ tablets. The soon-to-be released NCR Silver One™ further streamlines the entire payments process for small businesses – simplifying setup and delivering relevant transaction data to business owners so they can easily improve customer engagement.

The advanced solution provides payments processing through JetPay, which NCR acquired last year. This removes the burden of selecting a payments processor from the small business owner. NCR Silver One also includes a comprehensive digital commerce suite to help small business owners take advantage of online commerce opportunities.

"Today's business owners need simple, reliable and cost-effective technology solutions that help them quickly recognize revenue in the brick-and-mortar and online ecosystem," said Chris Poelma, president and general manager of NCR Silver. "NCR Silver One makes this possible in an easy, customer-centric way."

NCR previewed NCR Silver One for small business customers today at an event hosted at the company's headquarters. In addition to giving customers a sneak peek of the solution, the preview event included live cooking demonstrations from chef and restaurateur Bobby Flay, who uses NCR POS systems in his restaurants.

"Our customers work hard to ensure their businesses grow and thrive," said Poelma. "We want to celebrate this new technology – and more importantly our customer's future success – with them."
