April 26, 2021 at 11:00 AM EDT

ATLANTA--(BUSINESS WIRE)--Apr. 26, 2021-- NCR Corporation (NYSE: NCR), a leading provider of end-to-end software and technology that runs restaurants, today announced it is working with the U.S. Small Business Administration (SBA) to help NCR customers receive Restaurant Revitalization Fund (RRF) grants.

The restaurant industry has been among the hardest-hit sectors during the economic downturn caused by the COVID-19 pandemic. To help bring jobs back and revive the industry, the American Rescue Plan established the \$28.6 billion RRF at the SBA. The SBA will administer the funds to the hardest-hit small restaurants.

"Restaurants have been scrambling to survive the downturn caused by the pandemic," said Dirk Izzo, president and general manager, NCR Hospitality. "We are committed and honored to do our part to facilitate access to much-needed financial support for our customers so they can keep their business running."

NCR has partnered with SBA to provide validated sales and financial information for NCR customers using Silver Back Office or Aloha Insight business analytics for their 2020 vs. 2019 revenue to make it easier for them to apply for a grant via the SBA portal. NCR is also working with SBA to provide information to customers about applying for the RRF grants.

"The SBA is pleased to partner with NCR and others as we start helping restaurants across the country devastated by the pandemic," said SBA Administrator Isabella Casillas Guzman. "Together, NCR and SBA are helping restaurants get the relief and support they need to navigate today's COVID-restricted marketplace."

NCR is building the apps, software and services to drive front-end digital transformations that help run the restaurant. NCR is trusted by more than 100,000 restaurants, including independent operators, domestic chains and international brands across the globe. NCR's comprehensive offering includes the signature [NCR Aloha](#) POS platform and [NCR Silver Pro](#), to provide everything restaurants need to run their business, boost efficiency and increase growth.
